### USER MANUAL

MH-PBL52

#### GENERAL PRECAUTIONS:

1. In order to prolong the life of the battery, please charge it at least once every 6 months.
2. Do not place this product under high temperature and high humidity environment. Use in conditions between 0° to 120° F (-20° to 50° C).
3. Do not let the product get close to electronic medical apparatus or close to the people who have pacemakers or other medical devices.
4. Do not submerge this product in water.

The LED Rechargeable Power Bank Lantern is not only a powerful lantern light, it is also a USB power bank. It can be hanged on a camping tent hook or be laid out horizontally on a desk as a reading light. What's more, the strong magnet allows you to put the lantern on a metal surface. It can also be used as an emergency power source during a power outage.

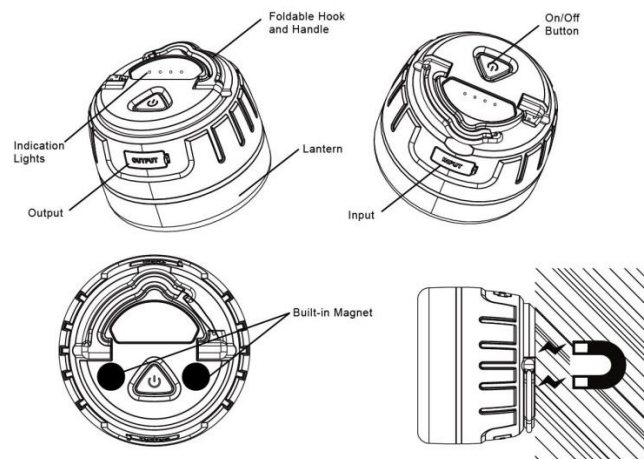

1 Year Limited Warranty
